change

Pharmacists

Science for a **better life**

Pharmacists

Wide-ranging career prospects

At Bayer you will be part of a global enterprise with core competencies in the Life Science fields of health care and agriculture. As an innovation company, we also set standards in research.

Around 300 pharmacists work at Bayer in Germany. Most of them start their careers at Pharmaceuticals, Consumer Health and Animal Health.

The **Pharmaceuticals** Division focuses on prescription drugs for the therapeutic areas of cardiology, oncology, gynecology, hematology and ophthalmology. The **Consumer Health** Division brings consumers some of the world's best-known over-the-counter medications, nutritional supplements and other self-care products. The business unit **Animal Health** at Bayer is a global leader in offering innovative therapies and solutions for companion as well as farm animals.

As a pharmacist you will be involved in developing, manufacturing or marketing innovative medicines and healthcare products in one of these divisions. We offer a wide range of entry points and career opportunities:

- // Compulsory work experience internships ("Famulatur"), practical year and internships for students to write dissertations and final theses
- // Doctoral and postdoc programs

- // Future Leadership Program for pharmacists in Product Supply
- // Trainee Program Marketing & Sales at Bayer Vital
- // Career entry

Whether you are a student, career entrant or an experienced professional, Bayer offers wide range of opportunities in different areas:

- // Drug development, for example, in pharmaceutical technology (formulation technology), development analytics and preclinical and clinical research
- // Drug registration
- // Production
- // Quality control
- // Marketing & Sales
- // Documentation

What you offer

To join Bayer, you need to have completed your university degree with above-average grades and preferably have gained some initial practical experience in the pharmaceutical industry. A PhD is normally required for positions in drug development and quality control.

You will fit in particularly well with Bayer if you share our passion to innovate and want your ideas and solutions to bring about change. Team spirit, initiative and good communication skills are important. You also need to be flexible and mobile, with a sense of responsibility and an

interest in finding solutions. Further, you should have spent some time studying abroad and have intercultural experience and good language skills, in particular English.

What we offer

As an international science-based company we are passionate about innovations that improve the way people live in our world. Bayer offers an open and inspiring environment. We encourage you to question the status quo and think ahead. It takes imagination, ambition and courage to find answers to society's most pressing questions.

As a pharmacist at Bayer, you will be assigned to a specific area from the beginning. Following a successful start, you will have opportunities to work in different fields in Germany and abroad in the course of your career.
