Science For A Better Life

Theses and dissertations

Opportunities

Bayer offers excellent conditions for scientific work in an international corporation with state-of-the-art equipment and contact to leading experts. As an international science-based company with core competencies in the Life Science fields of health care and agriculture, we are passionate about innovations that improve the way people live in our world. To give students a fascinating insight into the world of Bayer, we offer opportunities for them to write their bachelor, master or diploma thesis at Bayer or work for us while writing your dissertation. We normally offer opportunities in the following disciplines:

- Chemistry
- Pharmaceutical science
- Bioscience
- Medicine/veterinary medicine
- Information technology
- Engineering
- Economics

We offer many ways for you to deepen the knowledge you have acquired at university. At the same time, you will find out more about working for an international corporation, and about our corporate culture and career opportunities offered by Bayer.

What you offer

If you would like to write your bachelor, master or diploma thesis at Bayer, you will need to have good grades in your studies to date. As a doctoral candidate, you should have completed your first degree in pharmaceutical science, bioscience, chemistry or medicine in good time and in the past two years with above-average grades.

In all cases, we expect you have a sound knowledge of your discipline and ide-

ally initial practical experience, possibly gained abroad. You need mental agility and creativity, and should be committed, motivated and an excellent team player. You also need to be flexible and open-minded, with a sense of responsibility and an interest in finding solutions. In many fields of work a good command of English is essential. You also need to have selected a topic that is relevant for Bayer and has already been approved by your academic supervisor.

You will fit in particularly well with us if you share our passion to innovate and want your ideas and solutions to bring about change.

What we offer

Bayer offers an open and inspiring environment where you can work with experts from a wide range of teams. We encourage you to question the status quo and think ahead. It takes imagination, ambition and courage to find answers to society's most pressing questions.

Working on your thesis or dissertation at Bayer is an opportunity to make a creative contribution to work on new topics. That means you can demonstrate your ability to produce scientific work while gaining a basis for subsequent employment in our company. Many students who get to know Bayer during or at the end of their period of study subsequently

take on interesting assignments in the Bayer Group. While working on your thesis or dissertation, you will be supported by an experienced mentor. You will also be able to make valuable contacts through our network.

We offer doctoral candidates ideal conditions to hone their profile and broaden their academic skills. For example, by enabling them to work with the latest technologies, use our extensive in-house library and work in an international team with other doctoral candidates. In addition, our experienced experts will provide support and assistance in publishing your thesis.

Naturally, you will receive appropriate remuneration while preparing your thesis or dissertation at Bayer. The contractual terms are agreed individually.

Interested?

For further information on entry and career opportunities at Bayer, details of our online application procedure and how to suggest a topic for your thesis or dissertation, visit our website at www.career.bayer.de.

We look forward to hearing from you.

Bayer is an equal opportunity employer.
